Visit to EPFL Innovation Park Meet the Members unlimitrust, Biopôle

Dear Swissparks.ch Members

Since Covid, we have hardly organized any more physical meetings. It is time for us to meet in person again and share our best practices.

The **EPFL Innovation Park** is the largest member of the network Switzerland Innovation.

The **unlimitrust** innovation ecosystem will foster new partnerships focused on advancing the Economy of Trust.

Biopôle is one of the largest life sciences campuses in Europe, home to over 2,500 people from the world's most innovative companies and research groups.

The time of the event has been chosen so that participants from southern or eastern Switzerland can arrive and return on the same day.

We all are looking forward to an exciting event, with my many thanks and kind regards, René Hausammann
