Site Visit at Bio-Technopark Schlieren-Zürich

Dear Swissparks.ch Members

After the recent visit to the EPFL Innovation Park has been received so well, we are going to visit the Bio-Technopark Schlieren-Zürich. Our many thanks to Mario Jenni for hosting this event.

As part of the program, we are also going to meet academic business incubators associated with the Bio-Technopark and the nearby HealthTechPark:

- **BioMed Entrepreneurship Programs, UZH**

Guided by seasoned entrepreneurs and experts-in-residence, the programs include the BioEntrepreneurship & Innovation (BEI) program empowering life sciences researchers in Switzerland to create successful spin-off companies, a Minor for Master's students, and an IncubatorLab providing the necessary infrastructure.

- **WYSS Zurich**

The Wyss Zurich Translational Center (Wyss Zurich) is a unique accelerator, embedded within ETH Zurich and the University of Zurich, that is dedicated to the emerging fields of regenerative medicine, robotics, and medical devices/bionics technologies.

- **ETH Entrepreneurship**

Excellence in entrepreneurship at ETH Zurich is driven by world-class research and education. It gives rise to groundbreaking new ventures that consolidate Switzerland's technological leadership.

- **HealthTechPark Zürich-Schlieren**

Provides the infrastructure and community to connect all HealthTech players and accelerate innovation in the Greater Zurich Area.

- **Bio-Technopark Schlieren-Zürich**

In very close proximity to ETH Zurich, the University and Zurich University Hospital, a science park for life science companies and institutions has developed in the last two decades, which has now acquired both national and international significance.

The time of the visit has been chosen such that participants from southern or western Switzerland can arrive and return on the same day.

We all are looking forward to another exciting opportunity to share best practices.
With my many thanks and kind regards, René Hausammann

Visit Program

@ Bio-Technopark Schlieren-Zürich, 26 March 2025, 13.00
